ABOUT ME

I'm Ali. A Web Designer and Software Engineer. I have been developing my skills in software development for nearly five years. I enjoy building products that not only work well but also create a great experience for users. Over the years, from programming competitions to participating in specialized courses, I have consistently strived to maintain a perspective that goes beyond just writing code.

EXPERIENCE

WEB DEVELOPMENT SINCE 2023

Developed e-commerce, corporate, personal, and portfolio websites using HTML, CSS, JavaScript, and Bootstrap, focusing on UI/UX, performance, and SEO.

PYTHON PROGRAMMING SINCE 2022

Developed Python skills in OOP and advanced concepts, with experience using Flask, Tkinter, Requests, SQLite3, Socket, JSON, OS, and Sys.

EDUCATION

BACHELOR OF ENGINEERING: COMPUTER ENGINEERING OCT 2024

Semnan University

HIGH SCHOOL DIPLOMA: MATHEMATICS SEP 2021

National Organization for Development of Exceptional Talents (Sampad)

SKILLS

- Python / C / C++
- PHP / SQL
- HTML / CSS / JavaScript
- Bootstrap / UI/UX Design
- WordPress / WooCommerce
- Linux / Git / GitHub

ACTIVITIES

Participated in programming competitions and algorithmic challenges on platforms such as Codeforces, while continuously developing my skills through specialized courses, self-learning, and exploring emerging technologies.
